

Target Users	
1. CEO / Executive Leadership	What does “winning” and “losing” mean for the business?
	What are the top KPIs you want to monitor?
	Where do you see the biggest cost/savings opportunities?
	What decisions should this dashboard help you make?
	How should opportunities and realized savings be tracked?
2. CFO / Finance	What are the major cost and revenue drivers?
	How do you currently measure potential vs realized savings?
	What financial KPIs are most important?
	How do you calculate ROI for savings initiatives?
	What financial reports are currently difficult to generate or reconcile?
3. Payment Integrity Head	What are the major sources of payment leakage/overpayment?
	How are suspicious or incorrect claims currently identified?
	What KPIs are used to measure payment integrity performance?
	How do you calculate potential, avoided, and recovered savings?
	Which areas/providers/claim types have the biggest opportunities?
4. Provider / Network Management	How do you identify high-cost or underperforming providers?
	Which provider KPIs are most important?
	How do you compare provider cost against quality/outcomes?
	How do you identify contract/payment opportunities?
	What provider-level insights would help you take action?
5. Population Health / Clinical Team	Which members or conditions are driving the highest costs?
	How are high-risk members and care gaps identified?
	Which interventions are currently being performed?
	How do you measure the outcome of those interventions?
	Where do you see the biggest opportunities to reduce avoidable costs?
6. Pharmacy / PBM	What are the major drivers of pharmacy spend?
	Which drugs/classes have the highest cost or utilization?
	How do you measure medication adherence?

	Where do you see opportunities through formulary, generic, or specialty-drug management?
	How are pharmacy savings currently measured?
7. Claims / Operations	What are the major claims-processing issues?
	Which claim types, providers, or procedures create the most problems?
	What operational KPIs are currently tracked?
	Which processes require the most manual effort?
	What alerts or insights would help your team act faster?
8. Data / BI Team	What data sources are available for the dashboard?
	How frequently is each data source updated?
	How many years of historical data are available?
	What data-quality or KPI-definition issues exist?
	What reports/dashboards are currently created manually?
Data Sources Required for Optum Insights	
Medical Claims Data	Claims, diagnosis, procedures, services, billed/allowed/paid amounts, denials, adjustments, provider and member information.
Pharmacy Claims Data	Drug/NDC, pharmacy, prescriber, quantity, days supply, drug cost, copay, formulary, prior authorization, refill and adherence data.
Member / Eligibility Data	Member demographics, enrollment, plan, line of business, eligibility dates, risk scores and member segments.

Provider Data	Provider ID/NPI, specialty, facility, location, network status, provider performance and quality metrics.
Clinical / EHR Data	Diagnoses, procedures, medications, lab results, clinical encounters, care plans and clinical outcomes.
Provider Contract Data	Contract details, reimbursement rates, fee schedules, effective dates, negotiated rates and payment terms.
Payment Integrity Data	Flagged claims, error types, fraud/waste/abuse indicators, review results, overpayments, recoveries and avoided payments.
Financial Data	Revenue, costs, margins, budgets, forecasts, PMPM, financial targets and actual vs budget performance.
Quality Data	Quality measures, readmissions, complications, preventive care, care gaps, patient outcomes and provider quality scores.
Revenue Cycle Management Data	Billing, coding, claim submission, denials, appeals, collections, accounts receivable and payment turnaround.
Utilization Data	Inpatient admissions, outpatient visits, ED visits, procedures, length of stay, readmissions and utilization patterns.

Savings / Opportunity Data	Identified opportunities, potential savings, validated savings, approved savings, implemented initiatives and realized savings.
Population Health / Risk Data	Risk scores, chronic conditions, high-risk members, care gaps, disease burden and intervention outcomes.
External / Benchmark Data	Industry benchmarks, CMS/public healthcare data, geographic data, provider benchmarks and relevant market data.
Master / Reference Data	Member, provider, organization, plan, product, diagnosis, procedure, drug, geography and contract reference data.
KPIs	
1. CEO / Executive Leadership	Total Healthcare Spend
	Revenue
	Profit / Margin

	Provider Quality Score
	Contract Variance
	Provider Denial Rate

	High-Cost Provider Count
	High-Risk Member Count
	Rising-Risk Member Count
5. Population Health / Clinical	Cost per High-Risk Member
	Chronic Disease Prevalence
	Hospitalization Rate
	ED Visit Rate
	Readmission Rate
	Care Gap Count
	Care Gap Closure Rate
	Preventive Care Rate
	Intervention Success Rate
	Avoidable Cost Opportunity
	Total Pharmacy Spend
	Pharmacy PMPM
6. Pharmacy / PBM	Specialty Drug Spend
	Generic Dispensing Rate
	Brand Drug Spend
	Drug Utilization Rate
	Medication Adherence / PDC
	Prior Authorization Rate
	Prior Authorization Savings
	Formulary Savings
	Duplicate Therapy Rate
	Pharmacy FWA Savings
	Claims Volume
	Claims Processing Time
	Clean Claim Rate
	First-Pass Resolution Rate
7. Claims / Operations	Claim Denial Rate
	Denial Value
	Claims Error Rate

	Manual Processing Rate
	Claims Cost per Transaction
	Reprocessing Rate
	Turnaround Time
	Automation Rate
	Overall Quality Score
	Care Gap Rate
	Care Gap Closure Rate
	Readmission Rate
	Complication Rate
8. Quality Management	Mortality Rate
	Preventive Care Completion
	Medication Adherence
	Patient Experience Score
	Provider Quality Score
	Quality Improvement Rate
	Total Billed Amount
	Total Collected Amount
	Clean Claim Rate
9. Revenue Cycle Management	First-Pass Resolution Rate
	Denial Rate
	Denial Value
	Days in AR
	Collection Rate
	Appeal Success Rate
	Bad Debt
	Coding Accuracy
	Revenue Leakage
	Total Opportunities Identified
	Potential Savings
	Validated Savings
	Approved Savings

10. Savings / Opportunity Management	Implemented Savings
	Realized Savings
	Savings Pipeline
	Opportunity Conversion Rate
	Savings Realization Rate
	Savings ROI
	Average Savings per Opportunity
	Time to Realize Savings
	Opportunities by Category
	Opportunities by Business Unit
