Key Responsibility	KPI
Own daily milk sourcing from farmer cooperative societies across districts, meeting volume and quality intake targets.	Milk Procured vs Target
	Milk Quality Compliance %
	Farmer Payment Turnaround Time
	Active Cooperative Societies (Growth)
Run day-to-day operations at a processing plant (e.g. Chennai, Salem, Madurai, Tirunelveli) to hit output, cost and quality targets.	Production Volume vs Plan
	Plant Capacity Utilization %
	Overall Equipment Effectiveness (OEE)
	Production Cost per Litre (₹/L)
	Wastage / Spoilage Rate %
Ensure food-safety and product-quality compliance across plants, warehouses and the cold chain.	Batch Rejection Rate %
	Customer Complaints (per Million Litres Sold)
	Food Safety Audit Score
	Cold Chain Compliance %
Manage the plant → warehouse → market flow across the 10-warehouse network, including transport and inventory.	On-Time Delivery Rate %
	Warehouse Utilization %
	Logistics Cost as % of Sales Revenue
	Inventory Turnover Ratio
	Stock-Out Incidents
Forecast district- and city-level demand to guide production scheduling and distribution planning.	Forecast Accuracy % (District-wise)
	Inventory Days of Supply
	Stock-Out Rate % by District
Own sales performance across a cluster of districts within a zone (e.g. Northern / Western / Southern Tamil Nadu).	Zone Sales Volume vs Target
	YoY Sales Growth %
	Market Share % vs Competition
	Active Retail Outlets
Drive sales execution and distributor management within one assigned district (of the 38 tracked).	District Sales Volume vs Target
	Distributor Fill Rate %
	New Outlet Additions
	District YoY Growth %
Build brand visibility and expand presence across Tier 1/2/3 cities (currently 76 cities covered).	Brand Awareness / Recall Score %
	New City Market Entries
	Marketing Spend ROI
	Tier 2/3 City Sales Contribution %
Track profitability and cost efficiency across plants, warehouses and sales zones.	Gross Margin %
	Cost per Litre Produced (₹/L)
	Revenue Growth % YoY
	Working Capital Days
